The Last of the Last Days

10 Unmistakable Signs That We're In The Last Days Of The Last Days

Today things are moving so fast it's helpful to just step back, take a breath and look at the numerous Bible prophecies being fulfilled all around us. Here are 10 big prophecies that should convince anyone with 2 brain cells that we're definitely living in the last of the last days!

1) Israel Back In Their Homeland (Ezek 37:21)

Bible prophecies regarding the latter days begin and end with Israel. Until God regathered Israel back to their homeland, most latter-days prophecies could not begin. But return they did. In the late 1800s, after almost 2000 years of worldwide dispersion, the Jews began filtering back to their original God-given land.

In 1917, at the end of WW1, the Balfour Agreement gave the Jews a legal right of return. And on May 14, 1948, the United Nations declared Israel a sovereign nation.

2) Israel Is A World Problem (Zech 12:3)

The Bible not only promised Israel would return to their God-given land, but that this tiny nation would also become a burdensome stone to the world. Hardly a day goes by that Israel's not in the news. Israel has a population of about 8 million, the Arabs about 450 million.

You can barely see Israel (red) in the middle of a Muslim-dominated land.

Every American administration since Israel became a nation in 1948 has tried and failed to secure a lasting peace in the Middle East. The national news has a continuous dribble of problems regarding Israel and the Middle East, usually making Israel out to be the problem.

This ultimately ends with every nation on earth coming

against Israel in the Tribulation Period. Toward the end of the seven-year Tribulation period, the Antichrist will bring together the world's armies to "kill the Jews." But their Messiah, Jesus of Nazareth, will return to earth and save them from annihilation.

3) Homosexual Perversion (Mat. 24:37, Luke 17:28-30, Gen 19:5)

The Bible says that the days before the Rapture will be "just like" the days before God destroyed the earth with a global flood. And also just like the days before He destroyed Sodom and Gomorrah. One of the distinguishing characteristics specifically mentioned was widespread homosexual sin. God will again judge homosexual sin in the future.

Always know that homosexual behavior IS sin. Homosexuals are not born that way, rather they CHOOSE to be. Much like a thief can't stop stealing without the transcending power of God, a homosexual can't repent/turn from his/her sin without the power of God. Murder, stealing, adultery, homosexuality, etc., ARE clearly defined as SIN by God's Word. God defines sin, not the government!

Today, homosexual rights are on the front-burner of the politically-correct push to bring the perversion out into the open as normal, incorrectly equating their demands with the push for black rights in the 60s.

But comparing homosexual rights to civil rights is not an apples-to-apples comparison because homosexual behavior is a choice and black skin color isn't. That fact seems to be lost in the rhetoric as God-given and constitutionally protected rights of Christians are tossed out the window while homosexual perversion is elevated to "normal" status.

4) Cashless Society (Rev 13:16-17)

A recent survey(1) said only 10% of Americans always carry cash. The worldwide movement toward electronic payments has been breathtaking. For most of those reading this article, if our bank unexpectedly froze our accounts, we'd be in deep trouble.

With banking now tied worldwide we're obviously not too far from one person literally being able to control the world. And that's where we're headed... to a point where one person will have total control of all transactions on earth.

5) Russian/Iranian Coalition (Ezek 38:2-8)

Amazingly the Bible predicts that Gog/Rosh (Modern day Russia) will invade Israel from the north with Persia (Modern day Iran) as

one of her principal allies. So it's not surprising that today Russia and Iran are becoming so militarily close.

Also keep in mind that the above prophecies, written 2700 years ago, pinpoint this time to be after Israel comes back into their land in the latter days.

6) Nuclear Weapons (Rev 6:4, Zech 14:12)

How would you have described a nuclear bomb 2,500 years ago? John and Zechariah had to do just that!

All they knew was that it was huge and quite destructive! So destructive that flesh melted off their bodies before their bones hit the ground!

That sounds exactly like a neutron bomb that's designed to vaporize the people and leave the buildings intact.

7) Increase In Knowledge (Dan 12:4, Nah 2:4)

The Internet has become the modern-day purveyor of information as you pretty much have access to anything and everything at your fingertips.

Ease of local or worldwide transportation by car, plane, train or ship is considered normal. Nahum 2:4 sounds like the prophet is looking down on a busy intersection at night.

8) Mockers denying Jesus' Second Coming (2 Pet 3:3-4)

Denying the clear Biblical doctrines of the Lord first returning in the Rapture is a SIGN of the Rapture. The dispensational model for scripture interpretation is the only consistent way to know what God says to us in His written word.

Yet over 80% of the "Christian Church" in the world is A-millennial in their theology, which is a basic denial of the Rapture. And also notice that 2 Pet 3:3 is not a verse talking to non-Christians--because it mentions "fathers" and God's "creation," therefore it's referring to Christians living in the last days!!

9) 144,000 Jewish Evangelists Identified (Rev. 7:4, 14:3,4)

This puzzling prophecy says God will choose 144,000 Jewish men and reveal Himself to them on Mount Zion in Jerusalem (different from Mount of Olives and Mount Moriah). Most interestingly, these men are virgins.

I wrote an article a few years ago identifying these men as the unmarried Rabbinical Jews between the ages of 18 and 30. Today they're estimated to number approximately 150,000, and their ranks are growing. (Go to compass.org and click on "Articles" to read the entire piece)

10) Israel's Deserts Blooming (Is 27:6, 35:1,2)

The Bible prophesies that the parched and desert land of Israel will bloom profusely. In the late 1800s, Mark Twain commented that there was hardly anything green in the entire land.

The Turks of Ottoman Empire, who controlled the land for 400 years, had heavily taxed trees on property. So most people simply cut down all their trees to avoid paying the tax!

Since the Jews began returning in earnest in the late 1800s, the Jewish National Fund has planted over 250 million trees throughout the country (which is roughly the size of Vermont).

One of the most amazing things we see in Israel today on our Bible trips

Jordan River in 1913.

is the incredible and colorful blooming vegetation in the Jordan Valley and the Dead Sea--the lowest point on earth.

Israelis invented the drip system that enables as little as a cupful of water to bountifully nourish a

Jordan River today.

whole tree for a day. Using this method in the desert has literally caused it to bloom in the last 50 years. They now export fresh fruit and vegetables via plane to Europe every day but Saturday (Shabot).

And the next big prophecy to be fulfilled:

Israel Discovering Great Riches (Ezek 38:13)

The Bible says there will be great riches discovered in the land. The riches are so great that sovereign nations band together to invade and take the riches. This is unfolding before our eyes! Israel has discovered huge gas fields inland and off-shore her coasts. And as they say in Texas, "where there's gas, there's oil." So it's only a matter of time.

Over 500 oil wells have been drilled in Israel to no avail. But recently Israel struck oil, and it's a whopper. It's over 10 times the average size of oil wells in the world and will provide billions of gallons of oil a year, far exceeding the needs of Israel.

As more wells are tapped into this massive reserve, Israel will become a major oil supplier to Europe and North America. Do you think this

will sit well with the Arabs? They already seethe at Israel's success in rebuilding a great nation in only 50 years. They're going to go bonkers!

And the prophecy also mentions gold and silver riches. As the Dead Sea dries up, could it expose more and more unseen riches?

Trust me, when Israel is able to supply oil at a lower price from a closer delivery point (the eastern edge of the Mediterranean Sea), the Muslims will go nuts.

And if Israel also discovers gold and silver, the Arabs will wet their collective pants. So Israel's discovering great riches is closely tied into prophecy #2 above, Israel being a burdening stone to the world!

Therefore, yes, I obviously believe we're living in the last of the last days. These 10 prophecies (there are of course a lot more!) prove the end of the current dispensation, the Church Age, is near. It will end with the Believers' exhilarating exit, shedding our present sinful containers! Yahoo!

To a trusting-the-blood Believer, seeing so much Bible prophecy coming together should be an exciting incentive to ask the Lord for His wisdom for being sensitive to the leading of His Spirit to reach our lost family, friends and co-workers with the Good News. And Good News it is!!!
