

## ***Did God Once Flood The Entire Earth?***

*Was there really a worldwide flood of judgment 4500 years ago?*

by Bill Perkins, Executive Director, *Compass International*

*The water prevailed more and more upon the earth, so that all the high mountains everywhere under the heavens were covered. Gen. 7:19*

If you believe in the Biblical doctrine of divine inspiration, that God inspired every word in the Bible, you WILL find yourself having to defend it. It just comes with the territory.

Most non-Christians, and even a lot of Christians, have been taught and accept the evolutionary model which takes God and the six days of creation out of the picture. The conclusion is that the Biblical account of creation is just a myth, a fable.

*Professing to be wise,  
they became fools,*

Rom. 1:22

But if Genesis 1 isn't 100% true as written, it casts doubt on the rest of God's Word. If there is one error anywhere in the Bible, the whole thing is suspect.

Genesis 1 is the foundation of the Bible—it tells us where we came from and to whom we're accountable. And if the foundation is destroyed, the entire building will fall.

Thankfully, if you know the facts, you can scientifically defend the Scriptures and the Lord Who inspired them. You can learn to boldly defend Genesis 1 to Revelation 22.

Take the Biblical account of the worldwide flood of Noah 4500 years ago.

*[God] did not spare the ancient world, but pre-*

*served Noah, a preacher of righteousness, with seven others, when He brought a flood upon the world of the ungodly 2Pet. 2:5*

The account in Genesis 1 is literally scoffed at by most the world. It's mainly scoffed at because to accept the account as accurate means the Bible is true, we have accountability to God, there is a judgment, etc. They can't go there. So instead they scoff while using the magic ingredient of "time" to change rocks into humans.

Denying the worldwide flood account in the last days was prophesied some 2000 years ago. Peter said the time will come when ungodly men would mock the Bible and dismiss the truth of a global flood of judgment about 4500 years ago (1Pet. 3:3-7).

Even a lot of Christians are duped because they've not been taught correctly.

Yet Jesus Himself testified about Noah and the worldwide flood.

*... Noah entered the ark, and the flood came and destroyed them all. Luke 17:27*

So as a Believer, it's imperative to be able to defend what we Believe to a lost world. For some scientific evidences that defend the Biblical account, go to [compass.org](http://compass.org) and read our free article *A Flood Of Evidence*.

But even better, join us this August 23-24 in at the rebuilt Noah's Ark in Northern Kentucky to hear apologists Josh McDowell and Russ Miller lecture on how to defend truth in the Bible.

# STEELING *Noah's Ark*

Friday & Saturday • August 23-24, 2019

**Join us in Northern Kentucky for a life-impacting Steeling Conference weekend at the rebuilt Noah's Ark!**

## **A great STEEL ON STEEL Bible Conference at night!**

Join like-minded Believers to learn how to defend the accuracy of the Bible. Josh McDowell and Russ Miller will **STEEL YOUR MIND with God's awesome Word!!**

## **A life-impacting visit to Noah's Ark and the Creation Museum by day!**

The conference sessions are Friday night and Saturday morning so the days are open to walk the corridors of Christianity's most-impacting structure built in the last hundred years.

Most of the world has reduced the account of Noah's flood to a mere fairy tale while teaching "evolution" as science. And most scientists, even Christians, don't believe the story's authenticity.

But now the world can see that Noah's Ark was large enough to hold two of every land-dwelling, air-breathing animal kind on the planet, plus enough food and water storage to last for over a year. This is because Noah's Ark has been rebuilt, to Biblical dimensions, full-size, for all to see!

**Almost two football fields long and three stories/60 feet high** it sits on 800 acres south of Cincinnati, in Kentucky, and it's the **largest timber-framed wooden structure in the world!**

The massive Ark includes food storage, water storage and all the kinds of mammals and birds using to-scale

life-like figures. It's been **authentically constructed using wooden pegs, planks and structural beams.**

The Ark includes Noah's and his three sons' apartments, a library and over 150 detailed exhibits explaining the scientific accuracy of the Genesis account of the flood and how it points to God's salvation through the "Door."

The Bible is defendable, word-for-word, letter-for-letter—from Genesis 1 to Revelation 22. And now more than ever in this day and age, we need to be able to defend our beliefs to an unbelieving world. None does this better and Josh will armor you with God's truth!

***THE LIST*** is our new Christian historical novel. It’s written from a new perspective of the Christ story, taking the reader through the three years of Jesus’ miraculous ministry through the eyes of two rich and powerful Sanhedrin members—Nicodemus and Joseph of Arimathea—two vastly different men who are pulled together in a search for truth at the most pivotal moment the world has ever known.

***The List*** introduces readers to an Israel most people have never imagined. From the mind-boggling spectacle of the ancient Passover in Jerusalem with 20,000 sacrifices in a single day, to chariot races in Herod’s Caesarea, to volatile behind-the-scenes Sanhedrin council meetings, it’s a completely new and unique walk through the Christ story.

*Flood, continued from page 1*

Best of all, the days are left open so you can visit the \$88 million Noah’s Ark complex. Built to Biblical specifications, the Ark is an amazing structure to visit. Almost two football fields long and 60’ high, you can see that all the animals fit with much room to spare.

Even when you add food and water for a year for all aboard, apartments for Noah’s and his three son’s families, there was so much room left over

they’ve filled it with hundreds of interactive displays teaching scientific explanations of the entire Biblical amount. Information you’ll use again and again to soundly defend your Biblical beliefs.

By the time you finish the weekend, you’ll be able to scientifically defend a global flood occurring about 4500 years ago. Hope to see you there!

See pages 2-3 for all the details of this incredible weekend! 🌀
